

Clinical Trial Training for Investigators

The North West Clinical Trials Collaborative is pleased to announce its on-campus course:

Improving Health by Improving Trials

Location: University of Liverpool

Course dates: 25th – 29th April 2016

Course fee: £475, includes course materials, lunch and refreshments

CPD accredited: 30 points awarded for full week attendance

Individual day attendance available: Charged at £95 per day

Faculty includes experts in:

Clinical trials: Professor Paula Williamson, Dr Susanna Dodd

Statistics: Dr Richard Emsley, Dr Thomas Jaki, Dr Chris Sutton, Dr Lisa Hampson

Qualitative and recruitment research: Professor Peter Bower, Professor Bridget Young

Health economics: Professor Dyfrig Hughes

Overview

The number of clinical trials being conducted has increased, and the need for greater efficiency in design, conduct, analysis and reporting has been recognised in both the public and industry sector.

The programme will include:

- Trial design
- Trial conduct
- Recruitment of trial participants
- Public and patient involvement
- Analysis and reporting
- Health economics

Prerequisites

Understanding of basic statistical concepts is assumed.

Teaching methods

All sessions will be interactive, with practical sessions, experiential learning activities and small group work. We ask participants to submit a short summary of their trial/interests in advance of the course, and ask faculty to refer to these wherever possible. An internationally recognised leading trialist will share their own experience and views about how to be a good Chief Investigator. Course tutors will be available during the week for individual discussion of specific projects.

Target audience

This course is aimed at health and research professionals, particularly those aiming to become Chief Investigators.

Feedback from previous course

“Speakers all knowledgeable / credible / approachable. Pitched at the right level.”

“The team is clearly very keen and worked hard to make the course happen.”

“The sessions on design and analysis were excellent and were very practical too.”

“The facilitators were excellent and to the point. The practical sessions made the lectures vivid.”

“Comprehensive overview, provided a basic understanding of most key issues I wanted to know about and many I hadn't considered.”
